 **Chiesi**

You are now taking the brand **Envarsus®** prolonged-release tablets which contains tacrolimus, a medicine used after a kidney or liver transplant to treat or prevent rejection of the organ transplant.

It is important that you are aware at all times that **Envarsus®** is the brand of tacrolimus medicine that you are taking since different brands release different amounts of tacrolimus; if **Envarsus®** is swapped for another brand this can either lead to side-effects or prevent the medicine from working properly. In the worst case scenario, if this medicine is not taken properly and following your physician's prescription, your transplant/graft may even stop working altogether. **Do not change the brand Envarsus®** except under the advice or supervision of your doctor.

You need to **take Envarsus® once daily in the morning**. Take it at the same time every day to avoid missing a dose. **Always carry this card with you** and show it to anyone who is involved with your medical care (doctor, pharmacist).

Reporting of side effects: If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. Do not stop taking your medicine. You can also report side effects directly to HPRC Pharmacovigilance, Earlsfort Terrace, IRL, Dublin 2, Tel: +353 1 6764971, Fax: +353 1 6762517, Website: www.hpra.ie, e-mail: medsafety@hpra.ie. Side effects should also be reported to Chiesi Limited on Tel: +44 161 488 5555, Fax: +44 161 488 5566 or Email: pv.uk@chiesi.com. By reporting side effects you can help provide more information on the safety of this medicine.

For full patient information on Envarsus® read the package leaflet.
